RE: Approval of waste pile and off spec gypsum materials reclamation proposals

Dear Mr. Allen:

The Division of Solid and Hazardous Waste has completed its review of the August 16, 2010 proposals to 1) install a permanent cover on the gypsum waste pile and 2) place off-spec gypsum back into the quarry as reclamation fill. These proposals will be done in accordance with the reclamation plan approved by the Division of Oil Gas and Mining. Both of these proposals are also acceptable to the Division of Water Quality.

Your proposals dated August 16, 2010 are hereby approved. Please notify this office when the work commences. If you have any questions, please call Doug Taylor or Ralph Bohn at (801) 536-0200.

Sincerely,

**Original Document signed by Scott T. Anderson on 8/26/10**

Scott T. Anderson, Executive Secretary  
Utah Solid and Hazardous Waste Control Board
